TECHNICAL SUMMARY

Worked on live fintech and business service platforms during an internship at VM3 Tech Solutions using Node.js, MySQL, and React.js. Experience includes building REST APIs, handling databases, and creating responsive user interfaces. Comfortable working across the stack with a focus on backend development and integration in real-world, production-level projects.

EDUCATION

Matsyodari Shikshan Sanstha's college of engineering	Nov 2021 - July 2025
B.Tech in Computer Science and Engineering	CGPA: 8.34
Badrinarayan Barwale jr college	June 2020 - July 2021
Higher secondary certificate	PERCENTAGE: 85.33%

WORK EXPERIENCE

Vm3 Tech Solutions LLP 🌐 March 2025 - Present
Software Development Intern

- Contributed to the YouTax live project, a tax management platform, by working on both frontend development and backend/database integration.
- Developed responsive and user-friendly UI components using React.js, improving client-side functionality.
- Built and maintained secure API routes using Node.js and Express, connecting to a MySQL database for handling user and tax-related data.
- Collaborated with a cross-functional team in an Agile environment, actively participating in code reviews and version control via Git/GitHub

TECHNICAL PROJECTS

Buddy Bots – Multi-Functional Assistant Platform 🌐 🌐 [Live](#) (Team Project)

- Built a collection of smart assistants including a Chatbot, Voice Assistant, Task Manager, Reminder Bot (email-based), and Automation Bot.
- Developed a suite of smart bots including a Chatbot, Voice Assistant, Task Manager, Reminder Bot (with email alerts), and an Automation Bot to send job applications via voice commands.
- Integrated voice recognition, email automation, and real-time UI using Node.js and JavaScript, enabling seamless user interaction and backend processing.

Finetech Project – YouTax 🌐 [Live](#)

- Contributed to YouTax, a live tax management system designed for filing, tracking, and processing government-related tax services.
- Designed and managed MySQL database schemas to store and retrieve user and tax filing data efficiently.
- Developed RESTful API routes using Node.js and Express, handling user registration, data submission, and service flow logic.
- Conducted extensive API testing using Postman, verifying request/response structures, edge cases, and validation rules.

SKILLS

Languages: C++, Python, Core Java, SQL	Frontend: HTML, CSS, React.js, Bootstrap
Backend & API: Node.js, Express.js, REST APIs, Postman	Databases: MySQL, MySQL Workbench, MongoDB
Tools & Platforms: Git, GitHub, VS Code, XAMPP	

CERTIFICATIONS & TECHNICAL COURSES

- Full-Stack Web Development Foundations – Udemy
- Database Management & Sql Querying – IBM

ACHIEVEMENTS & REWARDS

Silver Medal – State-Level Innovation Coding Competition (Technex 2024)

Position of Responsibility

Vice President - CESA (Computer Science Engineering Student Association) (Aug 2023 – Dec 2024)
Led a team of 20+ members to organize technical events, coding competitions, and workshops that promoted hands-on learning and increased student participation in tech activities.
